

UNIT-4

PORTABLE WIRELESS
STUDIO MONITORS

AIAIAI

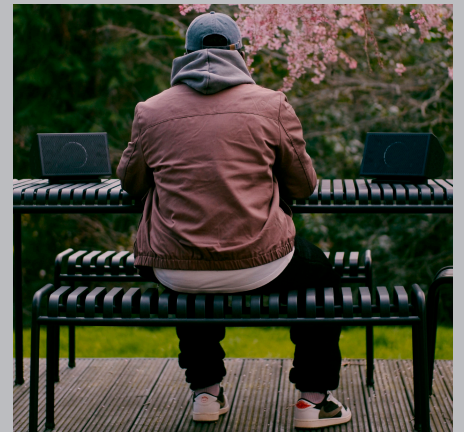

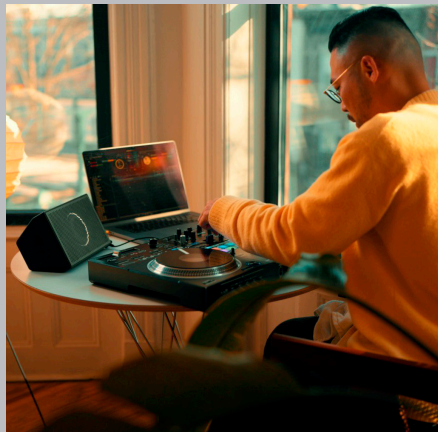

TAKE YOUR STUDIO SOUND WITH YOU

For years, music creators have been stuck in the studio.

But today all you need to make music is a laptop and a pair of studio monitors.

With UNIT-4, you can take your studio sound with you.

Now you can create music anywhere at any time, wherever inspiration strikes.

Why UNIT-4?

UNIT-4 is the world's most portable studio monitor that delivers the sound you need to produce and publish music.

Take it with you, pull it out wherever you are and get professional studio sound in seconds.

With **UNIT-4** you are getting more than a professional studio monitor. You are getting revolutionary wireless audio technology, unmatched portability and two wireless speakers in stereo.

Who is the customer?

UNIT-4 is for people who:

- want a **compact studio** set up
- want to the freedom to **create music anywhere**
- want to be **cable free**

without compromising sound quality and performance.
